GROWERS OF EVERGREEN TREES

Fryeburg, Maine

Tree Growing Time -- 1953

Dear Friend and Tree Grower:

Thank you for your inquiry. Harold and I have PROFITABLE NEWS for you!

This Spring, you can double your Tree Growing Profits in just a few months' time -- if you ACT NOW!

That's right! Increased utilization of valuable waste land for building projects has created a terrific demand for Evergreens -- and prices may go higher! But our Healthy Maine Evergreens still cost you less! And because you can buy our hardy Evergreens at these low prices --

1953 WILL BE A BOOM YEAR FOR YOU!

You can cash in on this "sky-rocketed" market NOW! Repeated transplantings and utmost care assure you of receiving Trees that are strong -- with healthy fibrous roots -- Trees that SELL ON SIGHT at highest market prices! Once you establish our Evergreens in your own grounds, you'll understand why the demand for our Trees is so great -- and your profits so high!

Extra Income With Christmas Trees

Christmas Tree Farming can be one of your most profitable enterprises -- with very little work involved! On as little as an acre of land, you can grow from 1000 to 3000 Trees with practically no cultivation necessary. Take advantage of the increased demand for Christmas Trees. The enclosed folder tells you more about this Extra Cash Income Opportunity, and how you can obtain your FREE Christmas Tree Bulletin.

The Trees you want this Spring -- for greater profits in a few months -- must be ordered NOW! Wholesale orders have been coming in fast, and even though we increase our Evergreen crop each year, we often run out of some varieties.

So select the Evergreens you want from our latest Wholesale Spring Folder enclosed. Fill out the order form, giving second and third choices, and mail with your remittance in the return envelope. If you wish, you can send only half the amount, and I'll ship your order C.O.D. for the balance.

Remember! You must send me your order without delay, as our supply of many varieties is limited! I'll reserve your Trees as soon as I receive your order. We'll ship just as soon as the frost is out of the ground -- right in time for Profitable Spring Planting.

Sincerely yours,

Harry Eastman

The Living Tree Nurseryman
